Passionate about learning
and teaching

ABOUT ME

I was born in Mexico City. At the age of fifteen I was admitted to Denver School of the Arts and moved to Denver, Colorado. I became curious about software programming when I was presented with the need to implement it into my artistic body of work. Through code, I aim to bring innovative ideas to my community, with a magical and creative approach.

PROJECTS

HEADCOUNT

<http://headcount.perezga.surge.sh/>

HEADCOUNT is a student head counter that presents students' parents and teachers with school district statistics in the state of Colorado.

- Present complex data in an organized, simplistic, and colorful manner.
- Tech Stack: React, SCSS, Premiere Pro.

SWAPIBOX

<http://swapiibox.perezga.surge.sh/>

SWAPIBOX is a digital Star Wars based encyclopedia. Data is provided by swapi and managed by fetch calls in React.

- Completed in a week.
- Use of nested fetch calls.
- Tech Stack: React, Redux, SCSS, Photoshop, Illustrator, Premiere Pro.

HYPERSPACE

<https://github.com/JorgeEdPerezGa/hyperspace>

HYPERSPACE is a web application for artists. It offers artists the ability to browse current bodies of work that are a part of the Harvard Art Museums' collection, personalize show cards (i.e. postcards) to promote upcoming exhibitions, and access a task manager.

- Create a complete and functional original application in two weeks.
- Tech Stack: React, Redux, Router, SCSS, Illustrator.

EXPERIENCE

Media Coordinator, "Metropolitan State University of Denver" June 2016 - June 2017
